EDUCATION

Ramco Institute of Technology, Rajapalayam

2023 – 2027

B.E., Computer Science & Engineering

Rajapalayam,, Tamilnadu

EXPERIENCE

Web Developer Intern, Gowri House Metal Works, Rajapalayam

Deployed

Techstack Worked: React.JS, Tailwind CSS,

Nov – Jan 2025

- Built and deployed a responsive company website with dynamic product sections, interactive UI components, and automated contact form submissions via EmailJS.
- Developed on Vercel with CI/CD pipelines and collaborated through GitHub for efficient version control.

Student Intern, HCL Technologies

July – Aug 2025

- Solved 30+ Java coding problems with daily GitHub updates, ensuring version control and progress tracking.
- Gained hands-on experience with JDBC and JUnit for database integration and code testing.

PROJECTS

Public E-Book Store System

Repository

Techstacks -React JS , Node JS , Express JS , Razorpay , JWT

- Developed a Full-Stack E-Book Store application with role-based authentication (Admin/Customer) and secure token-based authorization for controlled access.
- Integrated Razorpay Payment Gateway to enable seamless and secure online payments for borrowing e-books.

Automated Student On-Duty Management System

Repository

Techstacks : PHP, MySQL, HTML, CSS, JavaScript

- Designed a role-based web app with secure authentication and dashboards for Admin, HODs, Students, and Principal to manage on-duty requests.
- Automated request submission, approval/rejection, and status tracking, integrating MySQL for scalable storage and efficient data management.

Gaze Estimation Using CNN with OpenCV

Repository

Techstacks: Python, Machine Learning, Neural Networks, OpenCV

- Built a CNN model with preprocessing and inference pipeline for real-time eye gaze prediction using OpenCV and Haar Cascade classifiers.
- Achieved high accuracy in live gaze tracking through optimized model training and dataset labeling.

TECHNICAL SKILLS

- **Programming Languages** :C ,Java, SQL, Python , Javascript
- **Developer Tools**: Github, Visual Studio Code, Postman, Cursor, Docker, Kubernetes
- **Techstacks/Frameworks**: MongoDB, Express JS, ReactJS, NodeJS, Tailwind CSS,Next JS .
- **Core Subjects**: OOPs, DBMS, Computer Networks, Operating Systems.

CERTIFICATIONS:

- Backend Development Complete Bootcamp, **Udemy**
- Learn Java Programming – Beginner to Master, **Udemy**
- The Complete Full-Stack Developer Bootcamp, **Udemy**
- Google Cloud Study Jam , **Credly**

CO-CURRICULAR ACTIVITIES

- Winner of Naan Mudhalvan - HCLTech IDEATE 2 INNOVATE Design Thinking Hackathon
- Participated in the INVENTE'24 Hackathon at SSN College of Engineering, Chennai.
- Conducted peer learning sessions on HTML & CSS best practices and collaborated in a 7-day Web Development Workshop.
- Solved 300+ Leetcode Problems focused on Problem Solving
